

BGM-99

Timing Media Player

Features

- MP3 /WAV player
- FM Tuner
- Bluetooth 5.0 player function
- Up to 1024 timer points
- USB / SD card ports
- Software control via network
- 2 IN /2 OUT GPIO
- 128 x 64 OLED display
- 24V DC operation

BGM-99 is a professional sound player for fixed installations. It is dedicated to places where recorded messages or music should be played at specific times on a daily, weekly, monthly or yearly basis. Up to 1024 timer points can be programmed for many applications such as:

- Background music in malls and stores
- Commercials in supermarkets
- Class time/working time indicator in education and industry
- Announcements in transport
- Call to prayer in places of worship

The BGM-99 is compatible with MP3 and WAV audio formats and supports the SD card and USB memory stick. Output stereo signal comes on RCA jacks or through Bluetooth 5.0 functionality. In order to optimize the wireless transmission, the rear panel is equipped with a BNC socket for connection to an optional antenna.

In addition to the OLED display and the function buttons on the front panel, control software via LAN is available for sound files management and broadcast scheduling.

4 x GPIO can be used for remote control such as a message change or lighting switching on/off.

BGM-99 can also operate with a 24V DC power supply.

Specifications

MODEL	BGM-99
RCA output	Max output + 4 dB
Noise floor	< -90dB
THD +N	< 0.01% at 0dBu 1kHz
